

VISHNUMURTHY.N

DATA SCIENCE - INTERN

PROFESSIONAL SUMMARY

I am a Artificial Intelligence and Data Science student passionate about Data Science, Machine Learning, and Generative AI. I enjoy solving real-world problems using Python, SQL, and data analytics while continuously improving my technical skills through projects and internships.

TECHNICAL SKILLS

- Languages: Python, SQL
- Frame Work: Numpy , Pandas , Matplotlib , seaborn ,scikit learn
- Tools & Cloud: Git , Jupyter Notebooks, Visual studio code

PROJECTS

Netflix dataset EDA:

- Performed exploratory data analysis on the Netflix dataset using Python, Pandas, and Matplotlib.
- Cleaned and processed data, analyzed content by type, genre, release year, ratings, and runtime, and identified top trends.
- Created visualizations to present insights and exported reports with summaries.
- Strengthened skills in data cleaning, EDA, visualization, and data-driven storytelling.

. COVID-19 Data Analysis:

- Built a COVID-19 data analysis project using Python, Pandas, and Matplotlib to analyze country-wise time-series data.
- Computed daily and weekly cases, compared trends across countries, and applied rolling averages for smoother analysis.
- Created insightful visualizations and summary reports to highlight pandemic patterns.
- Improved skills in time-series analysis, data visualization, exploratory data analysis, and healthcare analytics.

IPL data analysis :

- Developed an IPL data analysis project using Python, Pandas, and Matplotlib to evaluate player and team performance.
- Analyzed top scorers, strike rates, wickets, and team win percentages across seasons.
- Created visualizations to compare player statistics and seasonal trends, generating concise reports with insights.
- Enhanced skills in sports analytics, exploratory data analysis, and data visualization.

INTERNSHIP EXPERIENCE

Data Science Intern

SyntecxHub (Remote)

Duration: June 2026 – July 2026
